

Ascom Myco accessories

Ascom Myco accessories: Optimize your mobile experience

Options, add-ons and extras to help you get the most from your trusted companion—Ascom Myco.

Always charged, always ready

Battery packs, battery pack chargers, wall- and table-mounted charging racks, USB charging cables and power supplies for all plug and socket types—everything needed to ensure your Ascom Myco devices are ready for duty.

Specific devices for specific teams

The back of each Ascom Myco has space for an identifying color insert. These inserts help individual members of staff and teams identify their designated handsets. Inserts are available in four colors: red, yellow, blue, green.

Keep it close, like a true companion

Sturdy carrying clips and security lanyards help keep the Ascom Myco where it's designed to be: close to caregivers and closer to the heart of care.

Headsets for hands-on care

Help keep caregivers, colleagues and patients connected. Connect a headset to the Ascom Myco with a 3.5mm jack-to-micro USB connector.
